

DIVINEGLASS® LIGHT :

A NEW WAY TO LIGHT OUTDOORS

ALTIIS, french specialist of outdoor floors ornamentation revolutionizes gardens lighting.

Glass is an unexpected addition to the garden ; it opens the door to endless possibilities for outdoor ornamental flooring : ornamentation, personal signature, photo, tableau, etc. Due to assembly qualities and slip resistance, DivineGlass® offer a new solution to decorate outdoors floors.

Personalized, DivineGlass® glass modules have dual functions :

- DECORATIVE : like a « **jewel** », DivineGlass® Decor module brings unusual touch of colour to floor : refined and stylish detail, its gives character to terraces, pathways, balconies, etc. instantly.

NEW : assessing artistic potential of DivineGlass® Decor modules, the artist Frédéric Bouffandeau, inspired by nature and plants, invites to dress terraces floors with its exclusive paintings to floors. Coloured, fresh and bright... pictures of the artistic work are graphic and have something ornamental. To discover in the dans la galerie « artistic collection » on www.jardin-et-design.com/en/

- LIGHTING : backlight, DivineGlass® Decor Light module is the ideal solution and brings an alternative garden lighting : **recessed pedestrian XXL spotlight**, It innovates with its size and its lighting area, up to 1.50 m². Accepted as a decoration element both day and night, DivineGlass® Decor Light modules boost and modernize outdoor living spaces.
